## PART 1

# Borrowing a Board

Reserve a cell, verify you're on-site, sign the forms, and collect your surfboard.

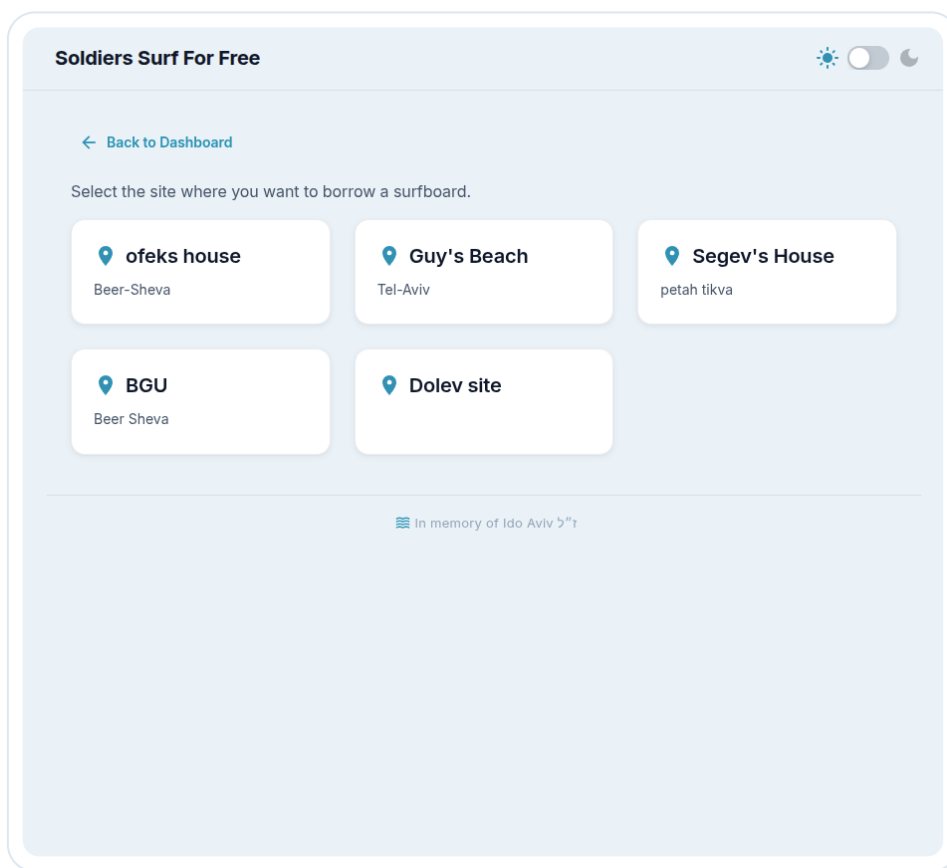

### 1 Open the dashboard and start a borrow

From your dashboard, tap the large **Start Borrow** button to begin a new rental.

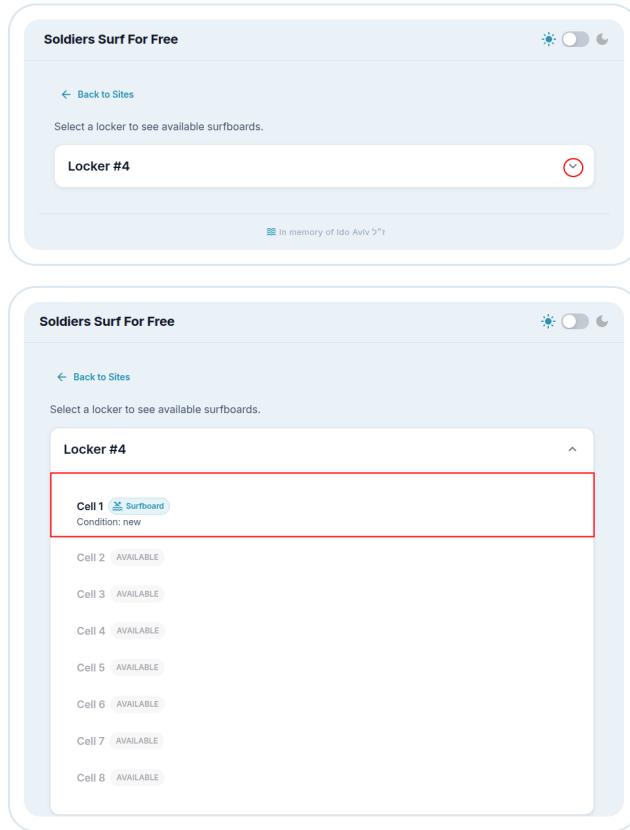

## 2 Choose your site

A list of available surf sites appears. Select the site you want to borrow from.

### 3 Pick a locker and an available cell

Tap the  arrow to expand a locker and reveal its cells. Choose a cell that holds a surfboard and is marked **AVAILABLE**.

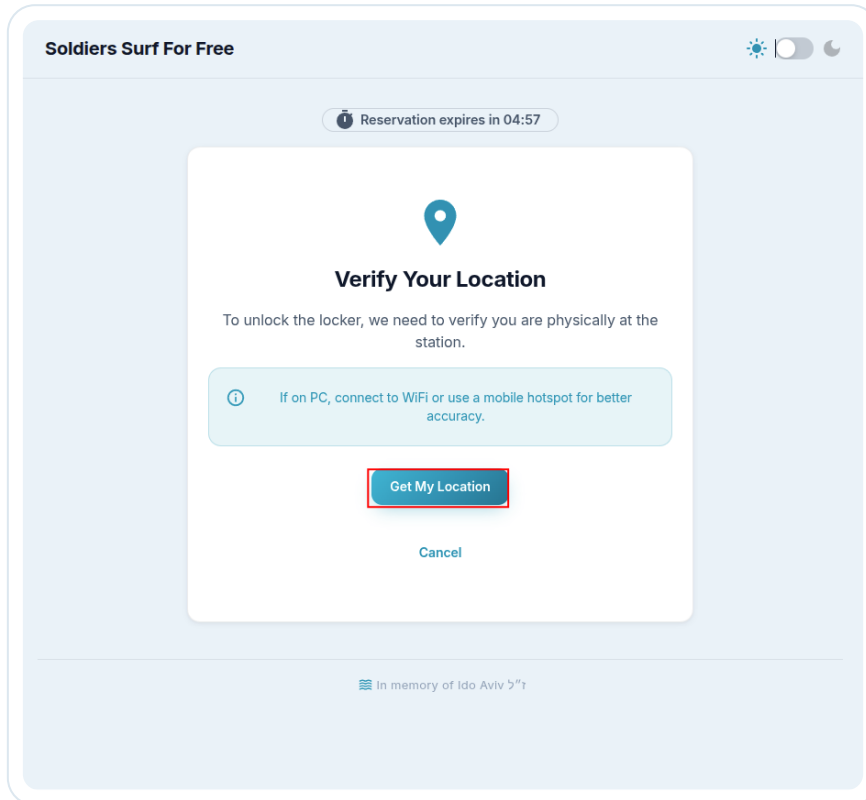

*Collapsed locker (top) → expanded with selectable cells (bottom)*

## 4 Verify your location

To unlock the locker, the app confirms you're physically at the station. Tap

**Get My Location** and allow GPS access when your browser asks.

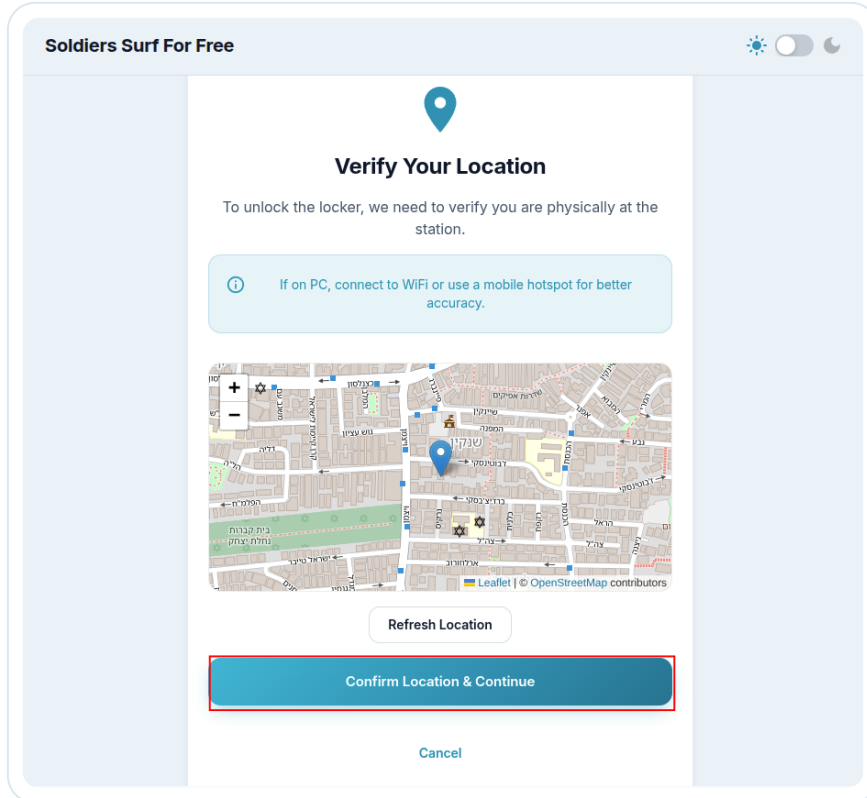

**Tip:** On a computer? Connect to Wi-Fi or use a mobile hotspot for better accuracy.

## 5 Confirm you're in range

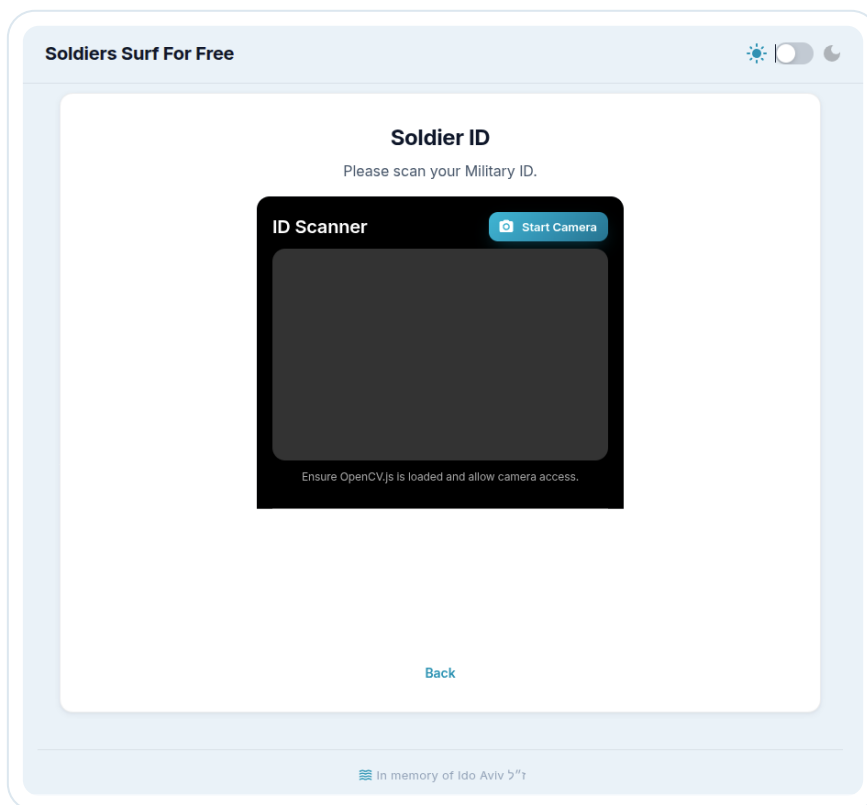

Your position appears on the map. Tap **Confirm Location & Continue**.

**Heads up:** this step fails if you're too far from the site. Move closer, tap **Refresh Location**, and try again.

## 6 Scan your Military ID (חוגר)

Tap **Start Camera** and photograph your Military ID. Use good lighting and line the card up inside the on-screen frame.

## 7 Confirm the scanned details

Your Military ID and Personal ID are read automatically. If they're correct, tap **Verify & Continue**. If anything looks wrong, tap **Rescan** and capture the ID again.

The screenshot shows the 'Soldiers Surf For Free' app interface. At the top, there's a header with the app name and a toggle switch. Below the header is a progress bar with three steps: 1. Soldier ID (active), 2. Health Declaration, and 3. Liability Waiver. A notification bar indicates 'Reservation expires in 04:02'. The main content area is titled 'Soldier ID' and prompts the user to 'Please scan your Military ID.' A green success message 'ID Scanned Successfully!' is displayed. Below this, the 'Military ID' and 'Personal ID' are shown as redacted black boxes. There are two buttons: 'Rescan' and 'Verify & Continue'. The 'Verify & Continue' button is highlighted with a red border. At the bottom, there is a 'Back' link and a footer with the text 'In memory of Ido Aviv י"ט'.

## Completing & Returning

Open the cell, swap the board back, and confirm the return to close your session.

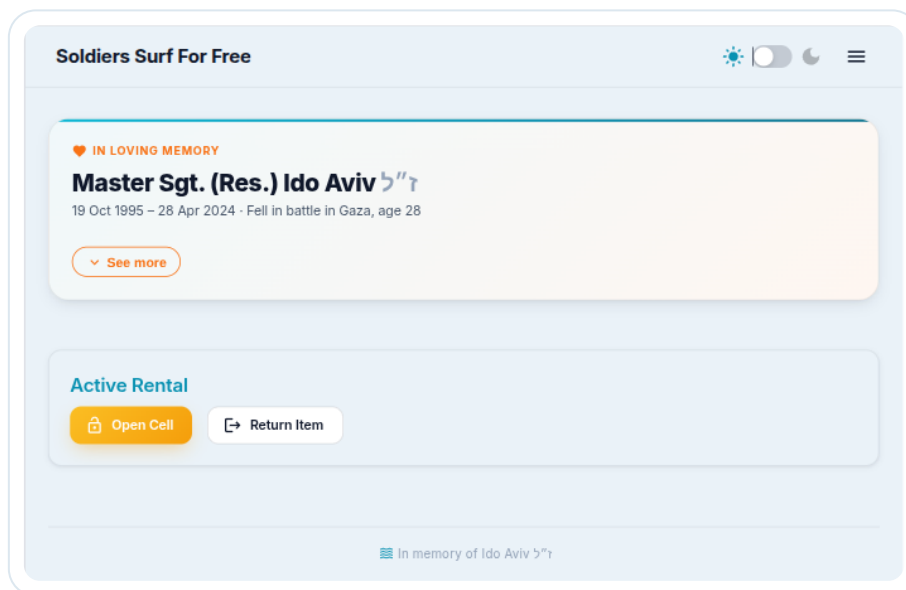

### 1 During your session

While a rental is active, your dashboard shows two buttons under **Active Rental**:

**Open Cell**

and

**Return Item**

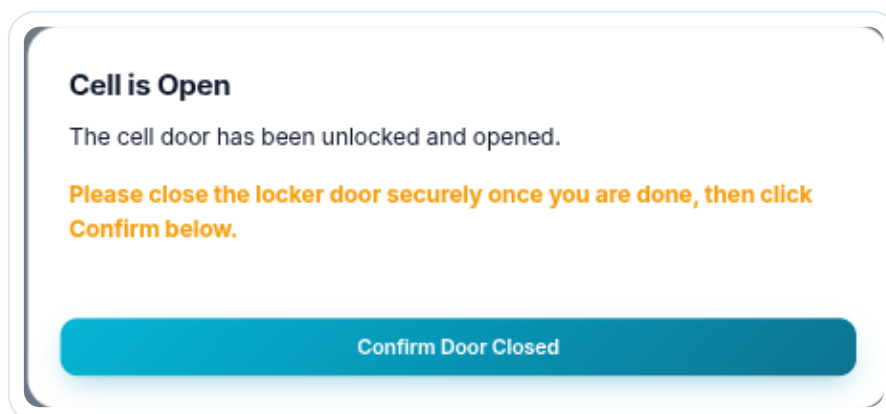

### 2 Open the cell to swap items

When you're done surfing, open the cell in one of two ways:

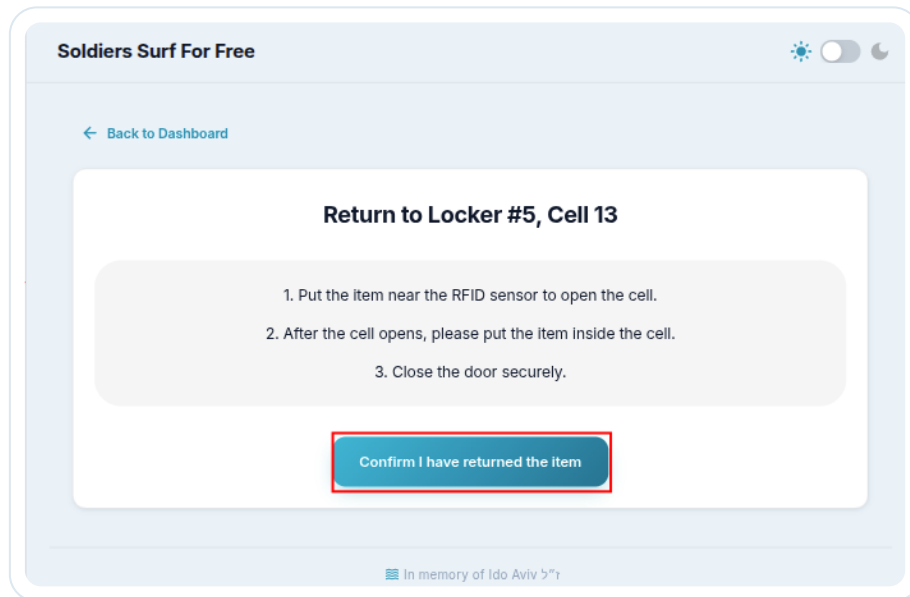

- Scan the **RFID chip** inside the leash, or
- Tap **Open Cell** on the dashboard.

Take out your belongings and put the surfboard back. A **Cell is Open** popup appears — close the locker door securely, then tap **Confirm Door Closed**.

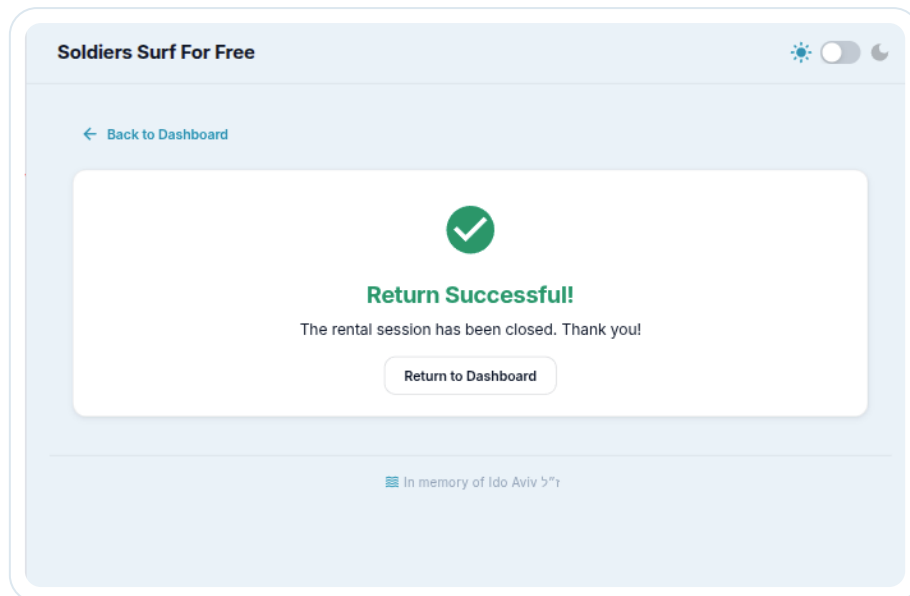

### 3 Return the item

After the board is back inside, tap **Return Item**, follow the on-screen instructions for your locker and cell, then tap **Confirm I have returned the item**.

### 4 You're all done

Once the board is back and the cell is closed, you'll see a **Return Successful** message and your rental session closes. Thank you, and enjoy the waves!

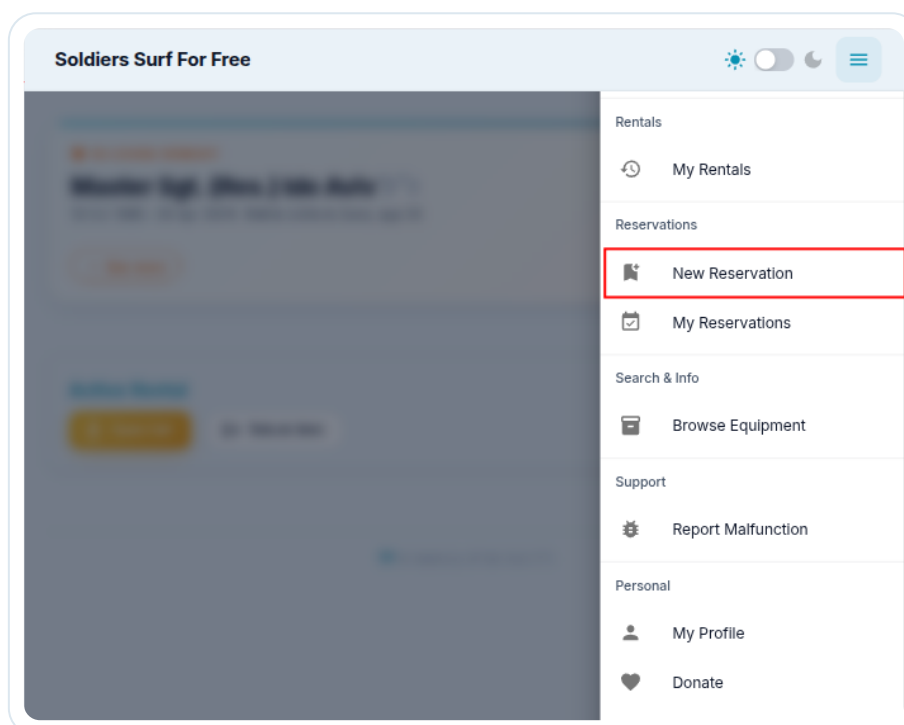

## Reserving in Advance

Hold a specific board ahead of time so it's waiting for you when you arrive.

You can reserve a board ahead of time. While reserved, only you can start borrowing that board. A reservation is held for **15 minutes** from its start time — if you don't begin the borrow within that window, the hold is released.

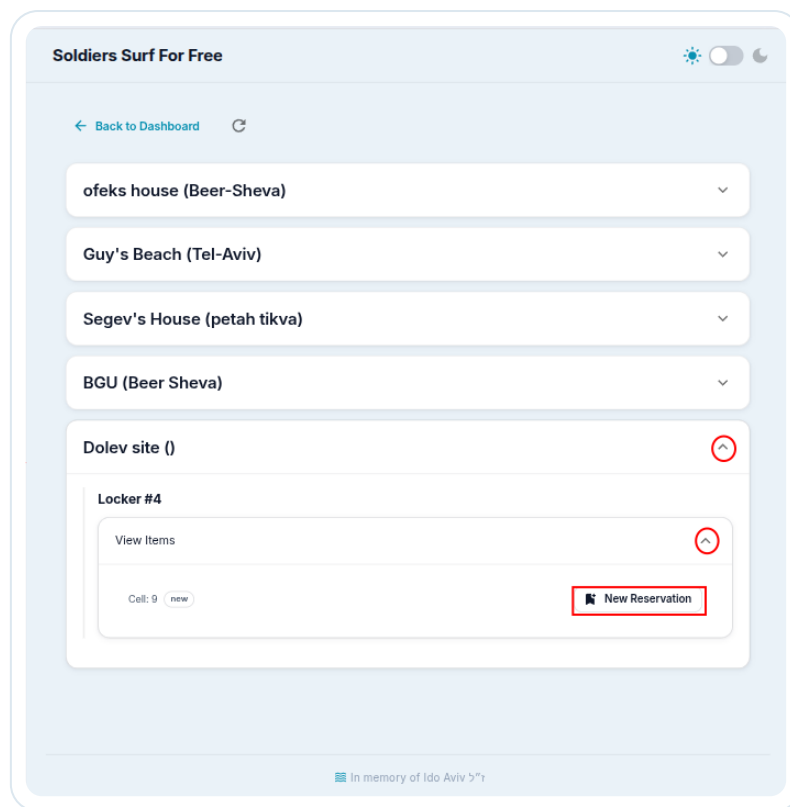

### 1 Open New Reservation

Open the menu  and, under **Reservations**, choose [New Reservation](#).

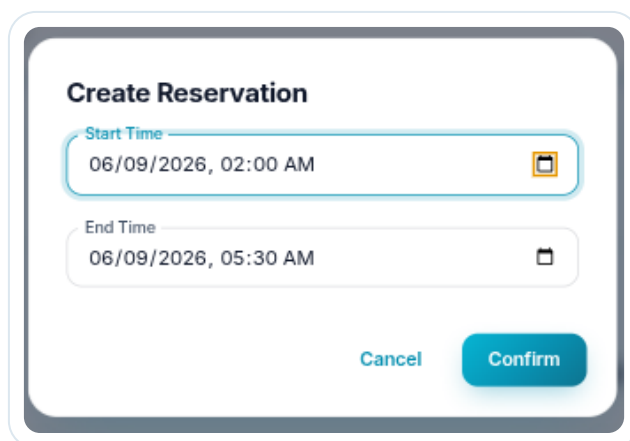

## 2 Choose the board to reserve

Expand a site, then a locker, then its cells. On the cell you want, tap **New Reservation**.

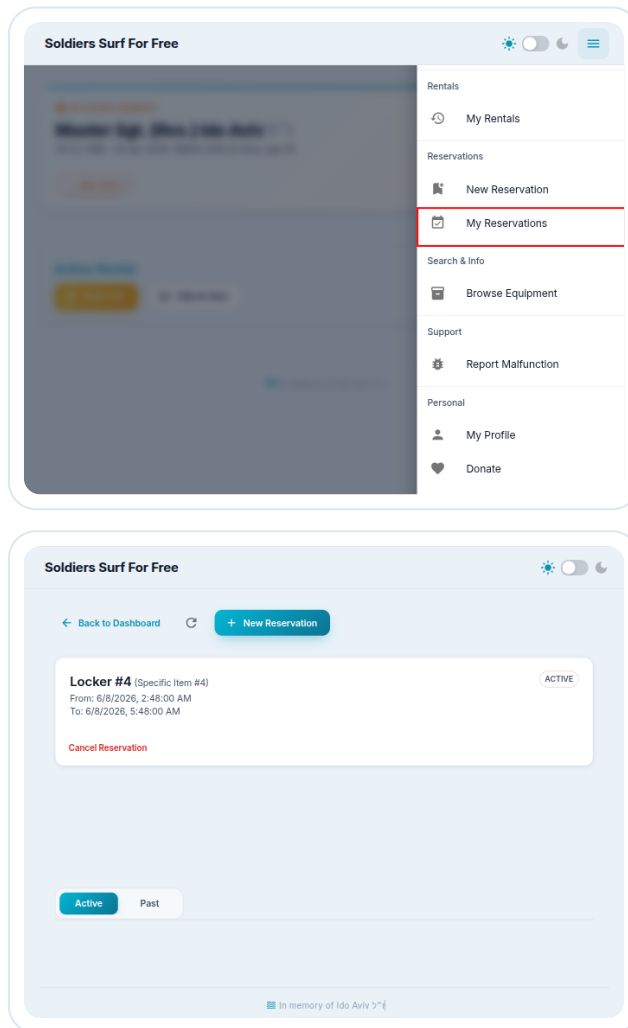

## 3 Set the time and confirm

Enter a start and end time — type it directly, or tap the calendar icon to pick it. When ready, tap **Confirm**.

## 4 View or cancel your reservations

To review your reservations, open the menu  and choose **My Reservations**. On the list, use **Cancel Reservation** on any active reservation you no longer need.

Open My Reservations (left) → view and cancel active reservations (right)
